INDEX

ABDOMINAL, intra-, pressure, acute effects of, 292.

Acclimatization to high altidude, changes during, 565.

Acidosis, diabetic, blood in, 667.

Adenylic acid, release of, traumatic shock and, 240.

Adrenal glands and urinary NPN after multiple fractures, 510.

Adrenalectomy, oxygen consumption of erythrocytes after, 502.

Adrenalin, effect of, on metabolism of peripheral tissues, 64.

Alcohol, effect of, on gastric secretion and potential, 162.

ALEXANDER R. S. and E. A. WEBB. The effect of blood cell concentration on the transmission rate of the arterial pulse, 316.

——. See SELKURT, ALEXANDER and PATTERSON, 732.

Alkaline phosphatase levels after hepatectomy, 418.

ALLISON, J. B., W. H. COLE, J. H. HOLMES and W. S. ROOT. The effect of hemorrhage and muscle trauma upon the blood phosphate of dogs, 422.

——. See ROOT, ALLISON, COLE, HOLMES, WALCOTT and GREGERSEN, 52.

Amino acids, essential, renal clearance of, 130.

ANDERSON, E., E. LINDNER and V. SUTTON. A sensitive method for the assay of insulin in blood, 350.

Anemia, lipid metabolism and, in splenectomized guinea pigs fed cholesterol, 1.

ANGERER, C. A. See GONZALEZ, Q. and ANGERER, 502.

Anoxic anoxia and water distribution in body, 103.

ASHMAN, R. See BYER, TOTH and ASHMAN, 264.

Atropine, effect of, on gastric secretion and potential, 162.

AXELROD, H. E. See MORGAN, AXELROD and GROODY, 333.

BALDWIN, H. R. See BERRYMAN, FRENCH, BALDWIN, BELL and HENDERSON, 254.

BATES, P. L. See BLAIR, DERN and BATES, 688.

BAZETT, H. C. Factors concerned in the control of capillary pressure as indicated in a circulation schema, 389.

BELDING, H. S., H. D. RUSSELL, R. C. DARLING and G. E. FOLK. Analysis of factors concerned in maintaining energy balance for dressed men in extreme cold; effects of activity on the protective value and comfort of an arctic uniform, 223.

——, ——, ——, —— ——. Thermal responses and efficiency of sweating when men are dressed in arctic clothing and exposed to extreme cold, 204.

BELL, S. L. See BERRYMAN, FRENCH, BALDWIN, BELL and HENDERSON, 254.

BERG, W. E. Individual differences in respiratory gas exchange during recovery from moderate exercise, 597.

BERGERON, G. A. See GREEN, BERGERON, LITTLE and HAWKINS, 112.

BERRYMAN, G. H., C. E. FRENCH, H. R. BALDWIN, S. L. BELL and C. R. HENDERSON. The relation of load test response and fasting excretion levels to tissue content of thiamine and riboflavin, 254.

—— and C. R. HENDERSON. Further observations on factors influencing the biochemical appraisal of nutritional status, 142.

BEYER, K. H., A. K. MILLER, H. F. RUSSE, E. A. PATCH and W. F. VERWEY. The inhibitory effect of caronamide on the renal elimination of penicillin, 355.

——. See WRIGHT, RUSSO, SKEGGS, PATCH and BEYER, 130.

Biochemical appraisal of nutritional status, 142.

BLAIR, H. A., R. J. DERN and P. L. BATES. The measurement of volume of gas in the digestive tract, 688.

Blood, assay of insulin in, 350.

—— cell concentration and pulse transmission, 316.

—— cells, red, oxygen consumption of, after adrenalectomy, 502.

——, effect of heavy muscular work on, 180.

—— flow of peripheral tissues, effect of adrenalin on, 64.

Blood glucose in acute hypothermia, 552.
——, human, movements of inorganic phosphate in, 678.
—— in diabetic acidosis, 667.
—— in hemorrhagic and traumatic shock, 52.
—— of nephrectomized animals, pressor principle in, 708.
——, oxygenated human, sodium and potassium in, 340.
—— phosphate after hemorrhage and muscle trauma, 422.
—— plasma and liver esterase activity in dog, 611.
—— pressure, capillary, control of, 389.
—— serum esterase after liver damage, 549.
—— sugar, effect of frontal lobectomy on, 246.
—— vessels, minute, effect of frost-bite on, 149.
Booker, W. M., D. M. French and P. A. Molano. Further studies on the acute effects of intra-abdominal pressure, 292.
Bozler, E. The response of smooth muscle to stretch, 299.
Brain perfusion, isolation of cerebral circulation and, in living cat, 517.
——, rate of potential changes in, during insomnia, 185.
Brauer, R. W. and M. A. Root. The relation between the esterase activity of the blood plasma and of the liver of the dog, 611.
Breath holding as test of physical endurance, 720.
Brody, S. See Sadhu and Brody, 400.
Brown, E. and E. M. Landis. Effect of local cooling on fluid movement, effective osmotic pressure and capillary permeability in the frog's mesentery, 302.
Byer, E., L. A. Toth and R. Ashman. Electrocardiographic changes induced by cooling or warming the inner surface of the dog's ventricle, 264.

CAPILLARY endothelium, effect of local cooling on, 302.
—— pressure, factors concerned in control of, 389.
Cardiac output, renal function and, endocrine influences on, 404.
—— oxygen metabolism and control of coronary circulation, 634.
Cardiovascular sensitivity to potassium in rat, 589.
Caronamide, inhibitory effect of, on renal elimination of penicillin, 355.
Cerebral circulation, isolation of, and brain perfusion in living cat, 517.
Cholesterol-fed, splenectomized guinea pigs, lipid metabolism and anemia in, 1.
Circulation, cerebral, isolation of, 517.
——, coronary, cardiac oxygen metabolism and, 634.
——, mesenteric, in hemorrhagic shock, 732.
Circulatory changes, respiratory and, during acclimatization to high altitude, 565.
—— response, respiratory and, to higher concentrations of CO_2, 43.
—— responses to oxygen, respiratory and, 277.
Clothing and energy balance in extreme cold, 223.
CO_2, higher concentrations of, respiratory and circulatory response to, 43.
Codie, J. F. See Scheer, Dorst, Codie and Soule, 194.
Cold, extreme, clothing and energy balance in, 223.
——, ——, thermal responses and sweating in, 204.
Cole, W. H. See Allison, Cole, Holmes and Root, 422.
——. See Root, Allison, Cole, Holmes, Walcott and Gregersen, 52.
Comroe, J. H., Jr. See Dripps and Comroe, 43, 277.
Coronary circulation, cardiac oxygen metabolism and, 634.
Cottingham, E. See Mills, Cottingham and Taylor, 376.
Crismon, J. M. See Fuhrman and Crismon, 552.
Cummins, G. M. See Grossman, Cummins and Ivy, 100.

DANOWSKI, T. S., P. M. Hald and J. P. Peters. Sodium, potassium and phosphates in the cells and serum of blood in diabetic acidosis, 667.
——. See Hald, Tulin, Danowski, Lavietes and Peters, 340.
——. See Tulin, Danowski, Hald and Peters, 678.
Darling, R. C. See Belding, Russell, Darling and Folk, 204, 223.

Decompression sickness, skin in, 626.
Dern, R. J. See Blair, Dern and Bates, 688.
Diabetic acidqsis, blood in, 667.
Diet, fat content of, and physical fitness, 194.
Diet, test, and gastric mobility, 107.
Dietary requirements of vitamins, environmental temperature and, 376.
Digestive tract, measurement of volume of gas in, 688.
Dorst, S. See Scheer, Dorst, Codie and Soule, 194.
Dripps, R. D. and J. H. Comroe, Jr. The effect of the inhalation of high and low oxygen concentrations on respiration, pulse rate, ballistocradiogram and arterial oxygen saturation (oximeter) of normal individuals, 277.
——, ——— ———. The respiratory and circulatory response of normal man to inhalation of 7.6 and 10.4 per cent CO_2 with a comparison of the maximal ventilation produced by severe muscular exercise, inhalation of CO_2 and maximal voluntary hyperventilation, 43.

Eckenhoff, J. E., J. H. Hafkenschiel, C. M. Landmesser and M. Harmel. Cardiac oxygen metabolism and control of the coronary circulation, 634.
EEG, experimental insomnia and, 185.
Egg production of aging fowls, hyperthyroidism and, 383.
Electrical potential of gastric mucosa, 77.
—— stimulation, response of muscle to, 7.
Electrocardiogram and ventricular temperature changes, 264.
Electroencephalogram, human, interpretation of, 538.
Electromyographic interference in human electroencephalogram, 538.
Emesis in dogs after vagotomy, 429.
Endocrine influences on renal function and cardiac output, 404.
Endothelium, capillary, effect of local cooling on, 302.
Energy balance in extreme cold, clothing and, 223.
Essex, H. E. See Hwang, Essex and Mann, 429.
——. See Quintanilla, Krusen and Essex, 149.
Esterase activity of blood plasma and of liver in dog, 611.
Excretion of vitamins, fasting, load tests and, 254.
Exercise, moderate, respiratory gas exchange after, 597.

Fasting excretion of vitamins, load tests and, 254.
Fat content of diet and physical fitness, 194.
Fatigue, muscular, and solubility of myosin, 177.
Flock, E. V. See Oppenheimer and Flock, 418.
Folk, G. E. See Belding, Russell, Darling and Folk, 204, 223.
Food intake after vagotomy and sympathectomy, effect of insulin on, 100.
French, C. E. See Berryman, French, Baldwin, Bell and Henderson, 254.
French, D. M. See Booker, French and Molano, 292.
